Experience

- 2024 Remote

V7

Senior Frontend Developer
V7 Labs

Worked on V7's latest product, V7 Go. Replaced custom components with headless alternatives, increasing a11y and UX while minimizing maintenance overhead. Shipped core features, such as Visual Grounding, Sorting, AskGo, and others. Tech stack focused on Vue, Typescript, Tailwind, Vitest & Playwright.
- 2022 - 2024 Remote

G

Senior Frontend Developer
Appwrite

Core member of all frontend products at Appwrite, most notably the Console, Website, and Pink Design System. Active participation in the OSS community, reviewing issues and PRs, supporting users on Discord, publishing blog posts, and participating in company talks. Tech stack focused on SvelteKit, Typescript, SCSS, and Astro.
- 2020 - 2022 Porto, Portugal

O

Senior Frontend Developer
Significa

Frontend Development, working with React, React Native, NextJS, Nuxt, Svelte and Typescript. Worked with clients around the world, handling and creating software throughout the entire development process (planning, drafting requirements, implementation, testing, deployment and maintenance), while mentoring junior devs inside the company.
- 2019 - 2020 Rio de Janeiro, Brazil

Stone

Frontend Developer
Stone Pagamentos

Creation of web apps, dashboards and interfaces for internal usage within the company, handling important client and financial information for businesses nationwide, implemented with React, Vue and Salesforce. Also participated in the design process, making prototypes with Figma.
- 2018 - 2019 Rio de Janeiro, Brazil

Rocket

Fullstack Developer
Social Rocket

Development focused on Backend and automation, using Python, Node and Javascript. Worked with external payment services, such as Pagar.me, and CRM platforms, such as Vindi.
- 2016 - now Rio de Janeiro, Brazil

Web

Web Developer
Freelance

Acting as a freelancer, I developed software based on clients requirements. I have worked with ecommerce, web apps, mobile apps, data automation, dashboards, and more.

Open-Source Projects

Melt UI

An open-source Svelte library for building high-quality, accessible design systems and web apps.

☆ 3.8k ↓ 100k / week [View](#)

Runed

Magical utilities for Svelte 5

☆ 700+ ↓ 68.9k / month [View](#)
